

**STATE OF MICHIGAN
IN THE COURT OF CLAIMS**

STEPHEN CARRA and ROBERT CUSHMAN
Plaintiffs

v.

JOCELYN BENSON, in her official capacity as
Secretary of State for the State of Michigan and
JONATHAN BRATER, in his official capacity as
Director of the Michigan Bureau of Elections
Defendants

Case No. _____

Hon. _____

Counsel of Record:

MATTHEW E. GRONDA (P73693)
Attorney for Plaintiffs

**COMPLAINT FOR DECLARATORY RELIEF AND ISSUANCE OF
AN INJUNCTION**

I. PARTIES

1. STEPHEN CARRA, a plaintiff, is running for election to the Michigan House of Representatives to represent District 59. He appears on the ballot for the November 3, 2020 general election.
2. CARRA, as an actual candidate in the November 3, 2020 general election, has special and substantial interest in a manner unique from the citizenry at large in ensuring an open, transparent, and lawful election process which is in part ensured by election challengers.
3. Additionally, CARRA is entitled to a declaration under MCR 2.605 with attendant injunction relief as the allegations in this complaint establish that an actual - as opposed to hypothetical - controversy exists.
4. In sum, CARRA has standing to bring this action. *Lansing Schools Education Association v Lansing Board of Education*, 487 Mich 349; 792 NW2d 686 (2010).
5. ROBERT CUSHMAN, a plaintiff, was designated an election challenger under MCL 168.730 by a political party to oversee and where appropriate challenge the counting of ballots during the August 2020 primary election in the State of Michigan. He actually served in that role.
6. CUSHMAN has been or imminently will be designated as an election challenger under MCL 168.730 by a political party to oversee and where appropriate challenge the counting of ballots during the November 3, 2020 general election in the State of Michigan.
7. CUSHMAN, as an election challenger, therefore has a special and substantial interest in the subject matter of this suit unique from the citizenry at large.
8. Moreover, CUSHMAN is entitled to a a declaration under MCR 2.605 which declares and protects his legal rights as an election challenger under the Michigan Election Law which are being infringed upon as discussed *infra*.
9. Like CARRA, CUSHMAN has standing to bring this action. *Lansing Schools*, *supra*.
10. JOCELYN BENSON, a defendant, is the currently elected Secretary of State of the State of Michigan and is being sued in that role.
11. In that role, BENSON is and must be the "chief election officer of the state" and has "supervisory control over local election officials in the performance of their duties under the provisions of the [Michigan Election Law]." MCL 168.21.

12. JONATHAN BRATER, a defendant, is the Director of the Michigan Bureau of Elections and is being sued in that role.
13. In that role, BENSON has vested BRATER with the powers and shall perform the duties of the Secretary of State under the Secretary's supervision with respect to the supervision and administration of elections laws.

II. JURISDICTION

14. This action seeks declaratory relief and the issuance of an injunction against state officers. Therefore, the Court of Claims has exclusive jurisdiction over this matter. MCL 600.6419.

III. MATERIAL FACTS

15. A general election will be held in the State of Michigan on November 3, 2020.
16. On or around October 16, 2020, BRATER, by the power delegated to him by BENSON, issued a written directive to all local election officials with respect to their conduct in the upcoming general election.
17. A true and accurate copy of that document is attached as Exhibit A.
18. In relevant part, the directive states:

"Challengers / Poll Watchers: While challengers' and poll watchers' have their rights and responsibilities established under law, election workers can strictly enforce requirements that they observe proper social distancing."

Exhibit A, page 8.

IV. DECLARE THE RIGHTS OF ELECTION CHALLENGERS AND REQUIRE BENSON AND BRATER TO RESCIND THEIR OCTOBER 16, 2020 DIRECTIVE AND FURTHER DIRECT LOCAL ELECTION OFFICIALS TO STRICTLY COMPLY WITH MCL 168.733.

19. All previous allegations are incorporated into this claim as if fully restated word for word.
20. This Court is empowered to "declare the rights and other legal relations of an interested party seeking a declaratory judgment." MCR 2.605.
21. The role of election challenger is created by statute. MCL 168.730.

22. Where an election challenger is appointed and approved in conformity with MCL 168.730, the rights of said challenger are provided and described at MCL 168.733.

23. An election challenger's legal rights are as follows:

- a. Challengers shall be provided a space within a polling place where they can observe the election procedure and each person applying to vote. MCL 168.733(1).
- b. The opportunity to inspect poll books as ballots are issued to electors and witness the electors' names being entered in the poll book. MCL 168.733(1)(a).
- c. Be allowed to observe the manner in which the duties of the election inspectors are being performed. MCL 168.733(1)(b).
- d. Challenge the voting rights of a person who the challenger has good reason to believe is not a registered elector. MCL 168.733(1)(c).
- e. Challenge an election procedure that is not being properly performed. MCL 168.733(1)(d).
- f. Bring to an election inspector's attention any of the following: (1) improper handling of a ballot by an elector or election inspector; (2) a violation of a regulation made by the board of election inspectors with regard to the time in which an elector may remain in the polling place; (3) campaigning and fundraising being performed by an election inspector or other person covered by MCL 168.744; and/or (4) any other violation of election law or other prescribed election procedure. MCL 168.733(1)(e).
- g. An election challenger may remain present during the canvass of votes and until the statement of returns is duly signed and made. MCL 168.733(1)(f).
- h. An election challenger may examine each ballot as it is being counted. MCL 168.733(1)(g).
- i. Keep records of votes cast and other election procedures as the challenger desires. MCL 168.733(1)(h).
- j. Observe the recording of absent voter ballots on voting machines. MCL 168.733(1)(i).

24. It is a felony punishable by up to two years in state prison for any person to threaten or intimidate an election challenger who is performing any activity described in the preceding paragraph. MCL 168.734(4); MCL 168.734.
25. More critically, it is a felony punishable by up to two years in state prison for any person to prevent the presence of an election challenger who is exercising their rights as described in paragraph 23 above or even fail to provide a challenger with "conveniences for the performance of the[ir] duties." MCL 168.734.
26. As stated above, BENSON is the "chief election officer of the state" and has "supervisory control over local election officials in the performance of their duties under the provisions of the [Michigan Election Law]." MCL 168.21
27. In that role, it is her mandatory duty to "advise and direct local election officials as to the proper methods of conducting elections" so that the entirety of the provisions contained in the Michigan Election Law, MCL 168.1 et seq, are followed.
28. The rights of election challengers, as set forth in MCL 168.733 and described above, are within the Michigan Election Law.
29. BENSON, and BRATER inasmuch as BENSON has delegated her election supervisory powers and responsibilities to him, therefore must advise and direct local election officials to not impede any election challenger from conducting his or her statutory duties.
30. Directly contrary to that duty, BENSON and/or BRATER have directed that local election officials can strictly require and enforce "social distancing" and face masking requirements upon election challengers as a condition of entry and performance of their duties.
31. The directive adopts the definition of "social distancing" promulgated by Robert Gordon, Director of the Michigan Department of Health and Human Services, in his October 9, 2020 order. Social distancing means that a person must maintain at least 6 feet of distance from another person.
32. A true and accurate copy of Robert Gordon's October 9, 2020 order is attached as Exhibit B.
33. In summary, BENSON and/or BRATER have directed local election officials to condition the presence of election challengers upon wearing a face mask. Even while wearing a mask, an election challenger may not get closer than six feet to any election worker.

34. First, this directive violates MCL 168.733. By statute, a qualified election challenger may only be denied entry to or expelled from a polling location in two specific circumstances: (1) if there is evidence that the election challenger is drinking alcoholic beverages; or (2) is engaging in disorderly conduct. MCL 168.733(3).
35. MCL 168.733 therefore does not permit a qualified election challenger to be denied entry to or expelled from a polling location for not wearing a mask or not maintaining six feet of distance from other persons.
36. Second, and more importantly, requiring an election challenger to maintain six feet of distance from election workers significantly impedes, frustrates, and in some instances makes impossible the full exercise of the challenger's rights and duties.
37. With respect to the August 2020 primary election, BENSON and BRATER directed that a substantially similar set of restrictions be imposed upon election challengers.
38. During CUSHMAN's service as an election challenger in the August 2020 primary election, it was very difficult to impossible to exercise his full rights from a distance of at least six feet.
39. By way of specific example, CUSHMAN states:
 - a. It was very hard to impossible to read names in the poll books.
 - b. It was impossible to tell whether the high-speed tabulator operator cleared the results before re-running the stack of ballots because of a jam of one ballot.
 - c. It was hard to see and hear the adjudication process.
 - d. It was very hard to impossible to observe computer screens which contain election data.
 - e. It was very hard to impossible to observe the checking of each ballot for seal and to observe whether envelopes were signed and dated.

V. REQUEST FOR RELIEF

Your plaintiffs CARRA and CUSHMAN respectfully request that this Court find and order the following:

- A. declare the rights and duties of election challengers;

- B. find BENSON and/or BRATER'S October 16, 2020 written directive with respect to election challengers to be in violation of the election challengers' protected rights and duties;
- C. order BENSON and/or BRATER to rescind said directive;
- D. order BENSON and BATER to direct local election officials to not impede, threaten, harass, fail to offer conveniences, or otherwise prevent election challengers from exercising their statutory rights;
- E. immediately issue a temporary restraining order and/or preliminary injunction as necessary to offer practical relief in time for the November 3, 2020 general election; and
- F. order any other relief necessary to protect the rights of election challengers so as to allow them to assist in assuring the integrity of our election.

VI. RESPECTFULLY SUBMITTED BY COUNSEL:

October 22, 2020

/s/ Matthew E. Gronda

EXHIBIT A

Michigan Department of State
Bureau of Elections

November 3, 2020 Election
Polling Place Safety and Accessibility

Guidelines for Operating Safe and Accessible Polling Locations

The Michigan Bureau of Elections appreciates the efforts election officials are taking to operate polling places to ensure elections can continue during the ongoing COVID-19 pandemic. Elections procedures must be designed to maximize the safety of election workers and voters alike, while maintaining accessibility of the voting process. To help prepare election workers, local clerks, and voters to safely navigate election day, the Bureau has compiled this reference guide for conducting safe and accessible in-person elections. This guide is based on recommendations from the Center for Disease Control (CDC) and State of Michigan Directives related to COVID-19. **This manual will be updated as new guidance and requirements are issued by federal and state authorities. The Bureau of Elections is not a public health authority. Local election officials should regularly consult local and county health authorities in addition to directives from State of Michigan health authorities and the CDC.**

Please consider that your local jurisdiction may have different circumstances, but polling locations across the State should be providing a consistent election service that observes all basic health and safety guidelines outlined within this document. In the management of precinct operations, Michigan Election Law extends election workers full authority to maintain peace, regularity and order in the polling place. (MCL 168.678)

This guide will cover:

1. General Safety and Hygiene Guidelines for Voting Locations
2. Proper Use of PPE and Protective Supplies
3. Precinct Set-up and Planning
4. How to Manage Voters
5. FAQ for Election Workers
6. Appendix
 - a. Health Screening Questions for Election Workers
 - b. CDC Facemasks Poster
 - c. CDC Social Distancing Poster
 - d. CDC Symptoms of COVID-19 Poster
 - e. Sample Script for Election Workers on Masks and Social Distancing
 - f. Sign on Masks and Social Distancing
 - g. Accessibility Checklist
 - h. Vendor Equipment

General Safety and Hygiene Guidelines for Voting Locations

COVID-19

The following description of COVID-19 is based on documents from public health authorities. The Bureau of Elections is not a public health authority.

- COVID-19 is a respiratory illness caused by a novel coronavirus. It is easily spread from person to person and thought to be spread in various ways:
 - From person to person
 - Through close contact with one-another (within 6 feet)
 - During prolonged face to face interactions (longer than a few minutes)
 - Via respiratory droplets from infected persons
- It is thought to be most contagious when most symptomatic, though may be spread without symptoms.
- The World Health Organization officially declared a global Pandemic as of March 11, 2020.
- Vulnerable populations include older people and people with pre-existing medical conditions.

Below are a set of election best practices for safety and hygiene. These are based primarily on recommendations from the Centers for Disease Control and Prevention (CDC). This list will be updated periodically:

- All workers should stay at home if they exhibit any of the following conditions: fever, respiratory symptoms, or sickness.
- Wash hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- Research shows that masks can greatly reduce the chance of spreading COVID-19, especially given that approximately 40% of those who have COVID-19 may be asymptomatic.
- Practice routine cleaning of frequently touched surfaces: including tables, doorknobs, light switches, handles, desks, toilets, faucets, sinks, etc.
- Disinfect surfaces that may be contaminated with germs after cleaning. Follow the election manufacturer's instructions for all cleaning and disinfection products (e.g., concentration, application method and contact time, use of personal protective equipment).
- Follow manufacture guidance on cleaning voting equipment. If no manufacturer guidance is available, consider the use of alcohol-based wipes or spray containing at least 70% alcohol to clean voting machine buttons.
- Ensure bathrooms at the polling station are supplied adequately with soap/water. It is advised to close restrooms to public use and for election worker use only, unless of emergency.

- Provide an alcohol-based hand sanitizer with at least 60% alcohol for use before or after using the voting machine or the final step in the voting process.
- Provide hygiene and safety equipment to workers.
- Observe social distancing – keep a distance of 6 feet or more whenever possible.

Proper Use of Personal Protective Equipment (PPE) and Protective Supplies

These guidelines have been established according to the latest Recommendations for Election Polling Locations established by the U.S. Center for Disease Control (CDC) issued June 22, 2020, as well as information provided by the CDC to the National Association of Election Directors (NAED) on May 12, 2020.

Personal protective equipment is most effective when the wearer knows how to properly put on and remove the equipment. Clerks are encouraged to provide resources to election inspectors on how to properly utilize this equipment. Consult the links provided below for CDC guidelines, or state and county health department resources where available.

- How to wear masks: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-wear-cloth-face-coverings.html>
- When to wear gloves: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/gloves.html>
- Proper donning and removal of PPE (video, includes removal of medical PPE but also useful for removal of gloves and cloth face coverings) <https://www.cdc.gov/coronavirus/2019-ncov/hcp/using-ppe.html>

Election Workers: All workers are required to wear masks under [Michigan Department of Health and Human Services Emergency Order](#) of October 9, 2020 (and any subsequent orders replacing it), (hereafter “MDHHS Order”, unless they cannot medically tolerate a face covering or meet one of the other exceptions in the order. Depending on local employment requirements and guidance, workers may be required or encouraged to wear other equipment such as gloves when performing all or some of their duties. If workers wear gloves, they should wash their hands after removing their gloves. Each precinct will receive hand sanitizer, fifty (50) masks, one (1) box of gloves, and five (5) face shields.

Voters: Under MDHHS Order, voters are strongly encouraged to wear face coverings in the polling place, but they are not required to wear one if they are at a polling place for purposes of voting in an election. If possible, have disposable masks available for voters who do not have one, but are willing to use one. Alternative procedures to consider for voters refusing to use face coverings is provided in subsequent pages.

Thermometers: Thermometers, if available, may be used to check the temperature of election workers, but not voters. Do not screen voters for temperature or any other symptoms.

Gloves: Depending on local employment requirement and guidance, election workers may utilize gloves made available by the BOE throughout the day.

Face Shields: The use of face shields is an appropriate augmentation to cloth face coverings. It may also be used as an alternative if an individual is medically unable to tolerate a cloth face covering. The use of face shields may help further mitigate the exposure to any airborne particulate. If it is necessary to remove a mask to communicate with a voter with a disability (for example, a deaf voter), a face shield should be used.

Tabletop protective shields / Sneeze guards: Primarily used to provide separation between election workers and voters being processed.

Disinfectant/Sanitizer: Ensure you have disinfectant and hand sanitizer to properly clean and disinfect surfaces and provide hand sanitation throughout the day. Consult CDC and vendor guidelines on properly cleaning and disinfecting surfaces.

Cleaning staff or volunteers: Staff or volunteers do NOT need to be election inspectors to be in the polling place and assist in cleaning the polling place. Consult with local government counterparts, civic organizations, and others to obtain assistance in cleaning and sanitizing the polling place. BOE is exploring additional resources that may be available on the state level.

Precinct Set-up / Operation

Proper precinct set-up will be vital in helping to improve the ability for voters and election workers to maintain safe distances and observe proper health and safety measures.

Please consider the following recommendations when operating your precinct:

Disinfect Surfaces: Keep all surfaces cleared of unnecessary clutter and clean/disinfect them regularly. Utilize anti-viral disinfectant to clean surfaces after use by each voter, including voting booths and all voter processing tables.

Clean and Disinfect Voting Equipment: Consult your equipment vendor or county clerk's offices for proper guidance on how to clean and disinfect all voting equipment. It is recommended that all equipment is cleaned and disinfected after use by each voter. If no vendor recommendations are available, utilize lightly wetted wipes of a disinfectant solution or solution of at least 70% alcohol. It is not advised to make equipment wet to the touch when disinfecting.

Social Distancing: You will have to plan your precinct layouts to accommodate for recommended social distancing. Where possible, ensure that all voter processing stations are spaced 6 feet apart, all voting booths allow for 6 feet of space between them, voters are organized 6 feet apart in line, and all workers are spaced a minimum of 6 feet apart. We realize some voting areas may not allow for this in all instances, but always use best judgement in trying to come as close as possible to keeping these distances. (See diagrams below for visuals and more details)

Limit/Disinfect Shared Objects: Limit shared items as much as possible (i.e. pens, ballot markings devices) and attempt to disinfect all items that are required to be shared.

Ventilation and Space: Allow for as much space between voting booths and processing tables. Ensure that rooms have proper ventilation, and that all ventilation systems are operational and functioning if available.

Provide Regular Breaks to Workers: It is important to limit worker's exposure as much as possible and allow time to wash and disinfect hands. Provide regular breaks and stagger shifts when possible to ensure workers have time away from crowds.

Physical Barriers: Utilize physical barriers, such as plexiglass dividers and plastic shields, to keep distances and separation between voters and election workers. Where available, provide for these barriers between voters at voting booths, or around tabulation equipment.

Consider your Location: You may share a polling location between multiple precincts, or your precinct may be located within a school or nursing home facility. Be mindful of your space when planning your precinct operations. Ensure that lines of voters do not disrupt or expose those within the location and ensure that voters do not exit the facility in ways that endanger possible at-risk populations.

Consider Alternative Voting Options: If possible, voters who are at higher risk, have difficulty waiting in long lines, are symptomatic, or not masked should be accommodated by any of the following options: drive through voting; curbside voting; additional voting locations outside the polling place; isolated or distant poll booths within the polling place. It may be feasible to place a sign outside of the precinct,

near the parking facilities, directing voters that meet these conditions have the option to call the local clerk to setup curbside voting accommodations.

- If curbside voting service is requested, two election workers of differing political parties will facilitate the following:
 - Bring Application to Vote to voter for completion and checking of photo ID or completion of Affidavit of Voter Not in Possession of Photo ID.
 - Return with completed Application to Vote to precinct and issue ballot through Electronic Pollbook using “Assisted Voter” button.
 - Return to voter with proper ballot concealed within secrecy sleeve.
 - Allow voter to complete the ballot.
 - Return with completed ballot in secrecy sleeve to the tabulator station.
 - Once tabulator accepts ballot as cast they will then return to the voter with confirmation of cast ballot (referencing public counter number) and “I Voted” sticker.
 - If the ballot is returned for any reason it must be returned to the voter in secrecy sleeve (without exposing votes) and advise voter of returned ballot and options to remedy or ballot reissuance.

Challengers / Poll Watchers: While challengers’ and poll watchers’ have their rights and responsibilities established under law, election workers can strictly enforce requirements that they observe proper social distancing. Challengers and poll watchers are subject to the requirement in MDDHS Order, to use face coverings in enclosed spaces (unless exempt due to health reasons).

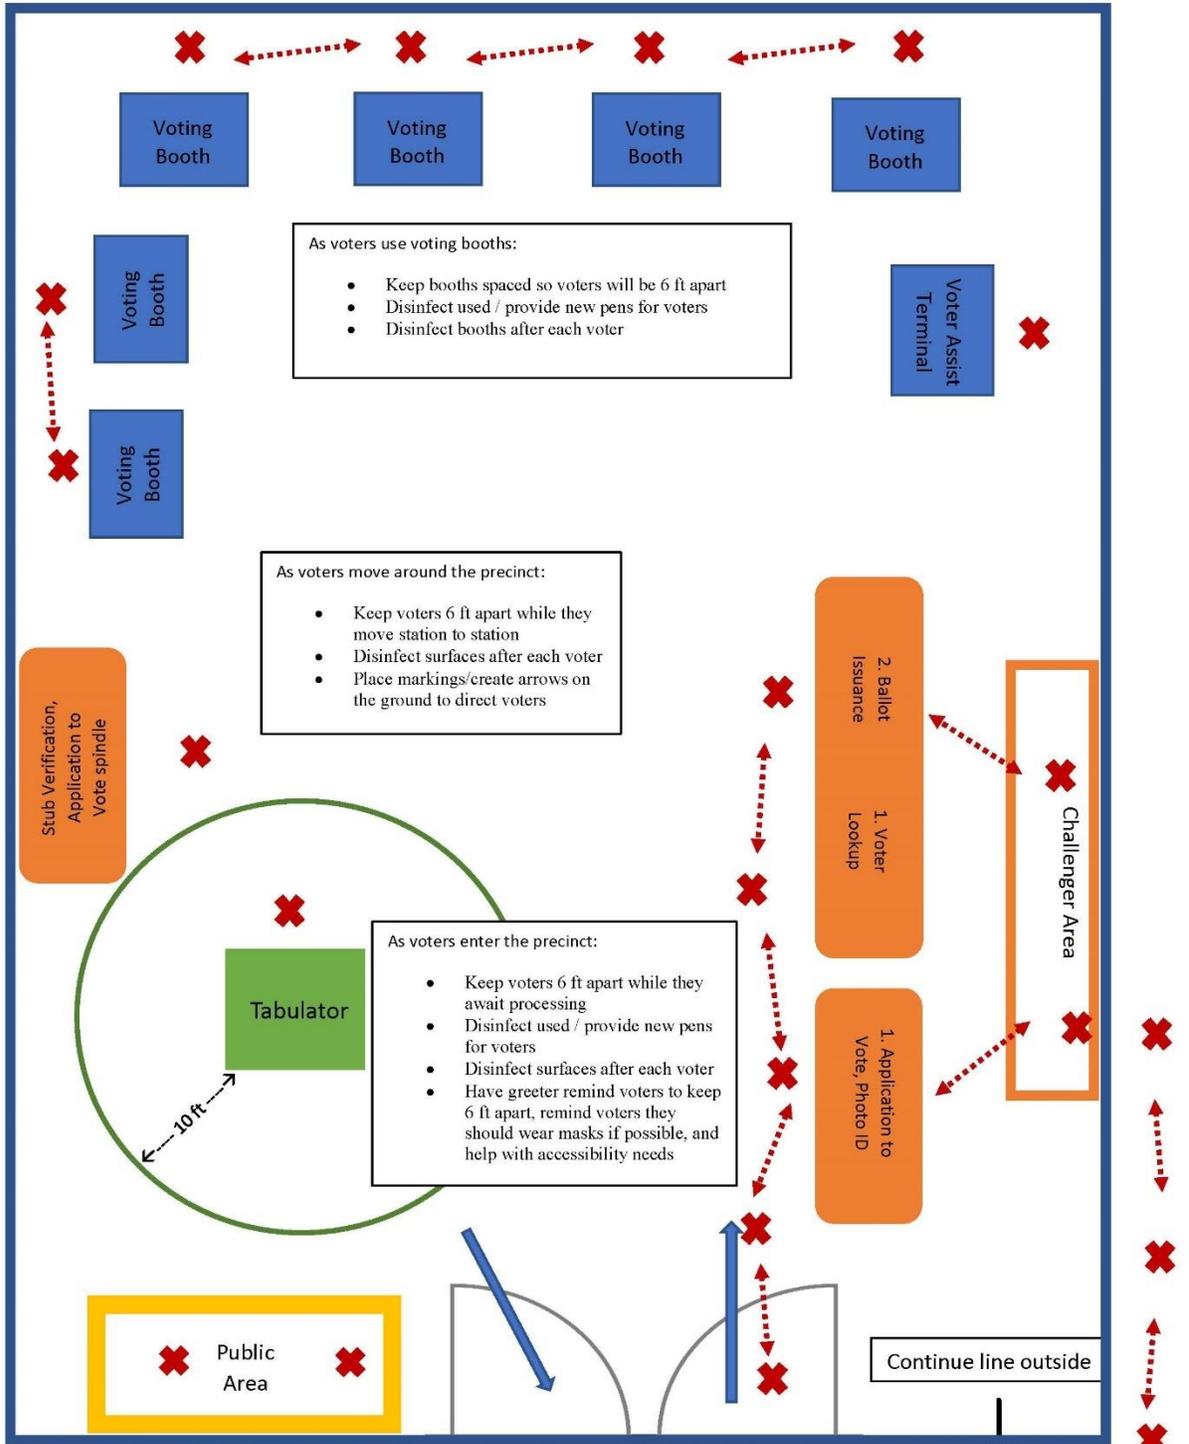

Application to Vote/pens: If possible, each voter should receive a pen to complete their application to vote. Pens can then be disposed of in a clearly marked receptacle (Used/Sanitized) and sanitized in preparation for use by the next voter.

Secrecy sleeves: Issue the voter a sanitized secrecy sleeve with their ballot. After they have tabulated their ballot, have an election worker sanitize and prepare the secrecy sleeve for use by the next voter. If using a paper-based secrecy sleeve, attempt to attach contact paper or laminate to provide for easy wiping.

See the diagrams below for recommended Precinct and Absentee Counting Board set-up orientations:

Safe Precinct Setup [Use with safety/accessibility guidelines]

Updated 7/6/2020
MI Bureau of Elections

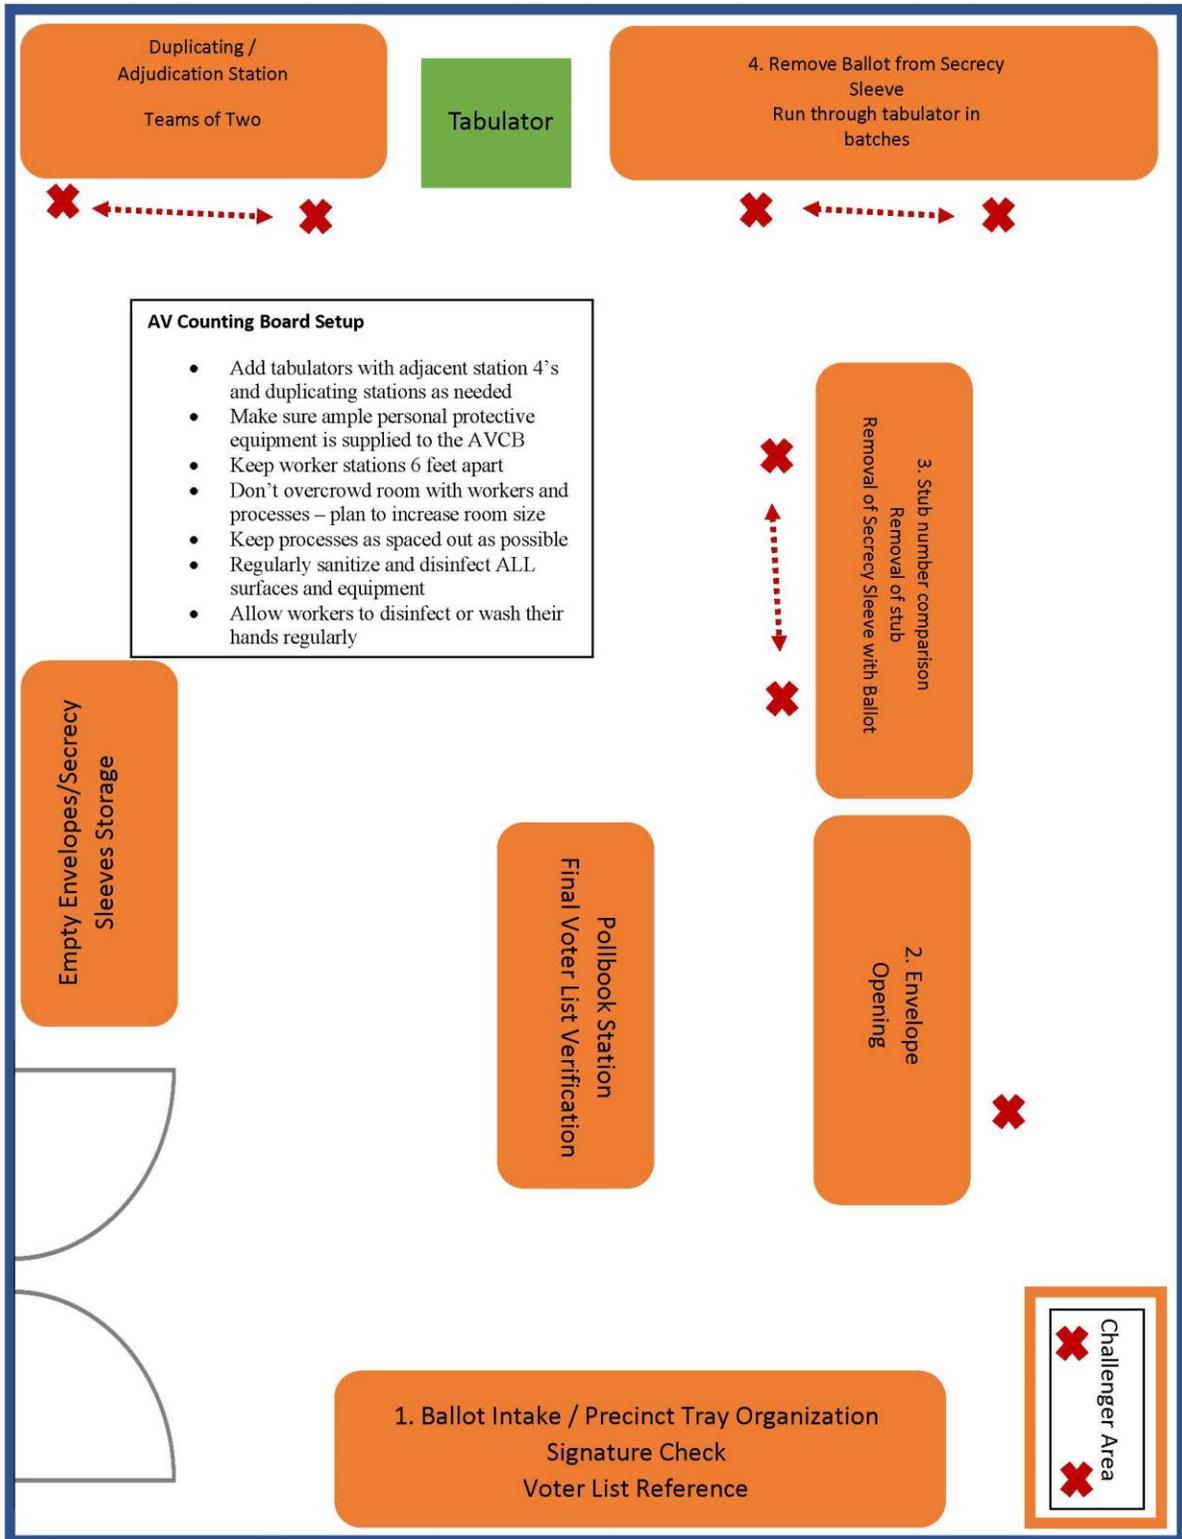

****Remember** – ensure that each station has sanitation equipment and supplies and hand sanitizer is available for public use at Stations 1 and 2.

X Mark spaces on the ground 6ft apart to allow for proper social distancing
→ Ensure that all stations/processes 6ft apart

Arrange space and staff to minimize people in one area.

Updated 7/6/2020
MI Bureau of Elections

Safe AVCB Setup [Use with safety guidelines]

- AV Counting Board Setup**
- Add tabulators with adjacent station 4's and duplicating stations as needed
 - Make sure ample personal protective equipment is supplied to the AVCB
 - Keep worker stations 6 feet apart
 - Don't overcrowd room with workers and processes – plan to increase room size
 - Keep processes as spaced out as possible
 - Regularly sanitize and disinfect ALL surfaces and equipment
 - Allow workers to disinfect or wash their hands regularly

****Remember** – ensure that each station has sanitation equipment and supplies. All workers should maintain distance and utilize PPE

Arrange space and staff to minimize number of people in one area.

Mark spaces on the ground 6ft apart to allow for proper social distancing
 Ensure that all stations and processes are placed 6ft apart

How to Manage Voters

Properly preparing your precinct will help when managing your voters as they circulate through the polling location and cast their ballot. While we anticipate that the increase in absentee voters will reduce the number of voters arriving in person, you should still plan to manage lines and easing the process for voters.

See the recommendations below for managing the flow of voters:

Manage Voter Flow into Voting Locations:

- Keep individuals, VATs, voting booths, and work stations at least 6 feet apart.
- Limit nonessential visitors to only those required or with a legal right to be on premises.
- Remind voters upon arrival to try to leave space between themselves and others.
- Limit number of voters inside voting location at same time as much as possible. Utilize outdoor line structuring if possible.
- Always limit contact between staff and voters to a few election workers if possible. Work behind sneeze guard/protective barrier. When assisting voters with VAT, maintain 6-foot distance.

Advertise Wait Times and Provide Updates: Lines will *appear* longer due to social distancing. It may be important to regularly update voters, both in line and who haven't arrived at the polls yet, on wait times and line status. Use municipal websites, official social media accounts, local media and news reporting to update voters on the status of the polling location and to remind them of social distancing and encouraged face covering guidance.

Use a Greeter / Election Assistant: The use of a Greeter or Election Assistant can help inform voters of suggested health and safety guidelines, encourage social distancing, remind voters of the suggested use of face coverings, and help ensure voters are in the correct place.

- Greeters / Line Assistants do not need to undergo election worker certification training, though it is advised that they are put under oath on file with the clerk's office acknowledging their involvement in official election work. (MCL 168.29)
- The use of the BOE Greeter App is recommended as a tool to look voters up and check their registration status / jurisdiction eligibility.
- These individuals can also be utilized in sanitizing surfaces after use by voters.

Use of Floor Demarcations: Minimize lines as much as possible, especially tightly spaced queues in small indoor spaces. Use floor decals and signs to remind voters to maintain social distancing while in line.

- Use markings to space voters out in line and indicate where voters should stand while waiting to be called to different voter processing stations.
- Mark where voters should stand while at the voting booth to ensure they maintain 6 feet of distance from others.
- Mark around the tabulator to ensure voters stay 6 feet apart.
- If you don't have signs or floor decals, using painter's tape to make X's is sufficient to mark off spaces.

Share Information on Masks: Under MDDHS Order, voters are strongly encouraged, but not required, to wear masks in the polling place. Unless an individual is voting or subject to one of the other exceptions,

MDDHS Order requires an individual to wear a face covering over his or her nose and mouth – such as a homemade mask, scarf, bandana, or handkerchief- when in any enclosed public space, unless the individual is unable medically to tolerate a face covering. The order also provides that it does not abridge protections guaranteed by the state or federal constitution.

Voters should be strongly encouraged to wear masks but cannot be denied the ability to vote because they are not wearing a mask. We recommend that polling places have extra masks available for voters who arrive without a mask. Each precinct is being provided with 50 masks by the Bureau of Elections; surplus masks can be offered to voters. If voters are not wearing masks, poll workers can encourage them to use curbside voting or direct them to voting areas that are at a greater distance from other locations within the polling place. However, voters cannot be denied the ability to vote because they are not wearing a mask. If a voter refuses to wear a mask and refuses voting alternatives such as curbside voting, election workers should facilitate the voter's ability to cast a ballot while preserving social distancing, rather than attempting to confront the voter. For example, the voter can be discretely directed to the voting station that is most isolated from other areas on the polling place

Handling the Checking of Voter Photo ID: Voters are required by state law to show photo ID if the voter has it, or to sign an affidavit if they do not. To prevent congestion at the EPB, this task should be completed as the application to vote is inspected. To complete this task, have a worker with a face shield take the photo ID or have the voter hold their photo ID up to the sneeze guard/plastic screen. A voter may be asked to briefly lower their masks during the ID check, but in most instances this will not be necessary.

Checking in Voters at the EPB: If the voter provides a driver's license as their photo ID, it can be utilized to locate them within the EPB - though this is not required. Consider using a hand scanner to scan the back of the ID through the sneeze guard to eliminate the handling shared items.

Ensuring Accessible Voting in the Polling Place

Election workers should ensure that that polling place is accessible, that accessible entrances are clearly marked, and that Voter Assist Terminals (VATs) are properly set up. Prior to the start of voting, the polling place accessibility checklist in the appendix to this document should be completed

How to set up the Voter Assist Terminal

The way you set up the VAT depends on which election equipment vendor your county uses.

Placement of Equipment on Table. The VAT should be placed on a table, with a chair, so that the equipment is accessible to voters with disabilities. Some VAT equipment comes with a vendor-provided table. If you don't have that, you can use an old AutoMARK table if you have one. If you don't have either, try to find a suitable table at an appropriate height that allows the voter to comfortably use the equipment while seated in a chair or wheelchair.

Placement of equipment in accessible and private location. Remember to place the VAT in an accessible location that provides privacy to the voter.

Printer Setup. Follow the specific printer setup instructions for your vendor equipment.

- ES&S Express Vote is single piece of equipment.
- Hart and Dominion have external printers that need to be connected.
- Make sure printers are connected to the device.
- The Hart Touch Writer requires a specific USB cord to be used to connect the device.

Cleaning equipment. The equipment should be cleaned after each use – including the screen, handheld controller, headphones, and any other devices used. Follow vendor-specific instructions for cleaning equipment.

How to use the Voter Assist Terminal

Specific instructions for using the Voter Assist Terminal are available on the Michigan Secretary of State Website.

- [Dominion Voter Assist Terminal](#)
- [ES&S Voter Assist Terminal](#)
- [Hart Voter Assist Terminal](#)

All three vendor VATs are ballot marking devices that have accessible functionality that can assist the voters marking ballots which can then be printed and placed in absent voter envelopes or tabulators. These include the following features:

- Touch screen
- Headphones and hand-held accessible controllers
- Ability to zoom text and control volume

- An accessibility port that allows for other devices like Jelly-Switches and Sip-Puff to be used with the VAT
- If a visually impaired voter is using the VAT, the screen can be blacked out so others cannot see what is on the screen

Any voter who asks to use the VAT equipment can use it. A voter does not have to have a disability to use the VAT. Never deny or restrict access to the VAT.

FAQ for Election Workers

Many election workers may have some common questions as we get closer to the elections; reference the below Frequently Asked Questions for some quick answers to common questions and concerns:

Q: Do voters have to wear masks to be allowed to vote?

A: No. MDDHS Order requires wearing masks in enclosed spaces unless the individual is unable medically to tolerate a face covering, but voters may not be denied the ability to cast ballots because they are not wearing a mask. You can strongly encourage the use of face coverings, remind voters of this recommendation as they wait in line, and offer alternative voting options such as curbside voting for voters not wearing masks.

Q: Can we check voters' temperature?

A: No, you cannot require voters to take a temperature check in order to vote. If permitted or mandated by your local employment policies, workers can be screened prior to or as they begin their shift.

Q: Can we prohibit voters from entering the polling location if they refuse to use PPE or are displaying symptoms?

A: No, voters cannot be turned away or prohibited from casting a ballot for any reason other than those explicitly explained in law (i.e., purposefully exposing their ballot, malicious disruption of the voting process). We encourage clerks to have procedures in place to accommodate voters who may not wish to comply with established health and safety standards, such as curbside voting and separate voting booths that may be thoroughly disinfected.

Q: Can we use donated one-time-use pens from businesses?

A: While disposable/one-time use pens are encouraged, utilizing private business provided pens may be perceived as advertising in the polling place and should be avoided if there is any written material on the pen.

Q: Can we utilize curb-side voting?

A: Yes. Refer to guidance provided within the Polling Place Safety and Accessibility document.

Q: Can we utilize drive-through voting?

A: Yes, as long as other voting options are available. Drive-through voting could potentially be an option if conducted appropriately, however the voting process must still be accessible for individuals without a vehicle and be a completely transparent process still accessible to challengers and poll watches.

Q: Can we post notices in the polling locations, regarding masks and social distancing?

A: Yes. Approved language will be supplied by BOE that can be utilized as extra instruction for voters.

Q: Can we require voters to call-in to gain access to the polling location?

A: No. The polling location needs to be open, barrier free, for all voters to access. Voters can be encouraged to call the clerk to receive curbside voting service.

Q: Can we have security/local law enforcement onsite for voters not willing to comply with health and safety guidelines?

A: No. While local law enforcement may be called upon to enforce certain election law offenses, they should not maintain a constant presence. Election workers maintain authority to maintain peace, regularity and order in the polling place. (MCL 168.678) You may contact law enforcement at your discretion if necessary to maintain peace, regularity and order in the polling place but police should not be stationed on site.

Q: Can voters still bring their children into the polling place?

A: Yes. Voters are still allowed to bring children and minors into the polling location, and they are allowed to accompany them into the voting booth. These individuals should still observe social distancing recommendations.

APPENDIX

Please use the below forms and images to help provide guidance and implement new procedures on election day.

Examples of Acceptable Election Worker Screening Questions

Below are examples of questions that could be asked to screen election workers if permitted or required by local employment policies to potentially screen out election workers based on symptoms. These questions are not recommended or required to be asked by the Bureau of Elections. Consult your local health and legal authorities on employee screening policies.

1. Have you come in contact with a person known or suspected to have COVID-19?
2. Have you had a fever in the last 24 hours?
3. Have you had a cough in the last 24 hours?
4. Have you had any difficulty breathing in the last 24 hours?
5. Have you had any unexplained body aches in the last 24 hours?
6. Have you taken any medications that would reduce a fever? (Tylenol, Ibuprofen, Acetaminophen)

Facemask Do's and Don'ts

For Healthcare Personnel

When putting on a facemask

Clean your hands and put on your facemask so it fully covers your mouth and nose.

DO secure the elastic bands around your ears.

DO secure the ties at the middle of your head and the base of your head.

When wearing a facemask, don't do the following:

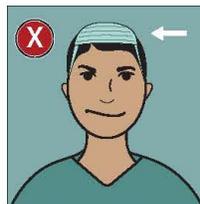

DON'T wear your facemask under your nose or mouth.

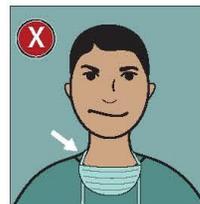

DON'T allow a strap to hang down. DON'T cross the straps.

DON'T touch or adjust your facemask without cleaning your hands before and after.

DON'T wear your facemask on your head.

DON'T wear your facemask around your neck.

DON'T wear your facemask around your arm.

When removing a facemask

Clean your hands and remove your facemask touching only the straps or ties.

DO leave the patient care area, then clean your hands with alcohol-based hand sanitizer or soap and water.

DO remove your facemask touching ONLY the straps or ties, throw it away*, and clean your hands again.

*If implementing limited-reuse: Facemasks should be carefully folded so that the outer surface is held inward and against itself to reduce contact with the outer surface during storage. Folded facemasks can be stored between uses in a clean, sealable paper bag or breathable container.

Additional information is available about how to safely put on and remove personal protective equipment, including facemasks:

Help Protect Yourself and Others from COVID-19

Practice Social Distancing

Stay 6 feet (2 arm's lengths) from other people.

And Wear a Cloth Face Covering

Be sure it covers your nose and mouth to help protect others.
You could be infected and not have symptoms.

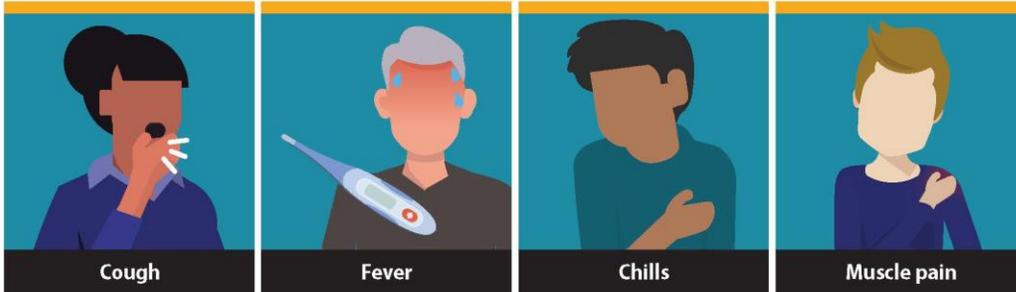

CS 317297-A 05/29/2020

Symptoms of Coronavirus (COVID-19)

Know the symptoms of COVID-19, which can include the following:

Symptoms can range from mild to severe illness, and appear 2-14 days after you are exposed to the virus that causes COVID-19.

***Seek medical care immediately if someone has emergency warning signs of COVID-19.**

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

This list is not all possible symptoms. Please call your medical provider for any other symptoms that are severe or concerning to you.

Sample Script for Election Workers Talking to Voters About Masks

Please keep a distance of at least 6 feet from other people whenever possible. You have the right to vote whether or not you're wearing a mask, but you are strongly encouraged to wear a mask. Wearing a mask helps protect election workers and voters from the potential spread of COVID-19. If you don't have a mask but would like one, we may have extra masks available. If you are not wearing a mask or are experiencing flu-like symptoms, please consider voting outside the polling place using curbside voting.

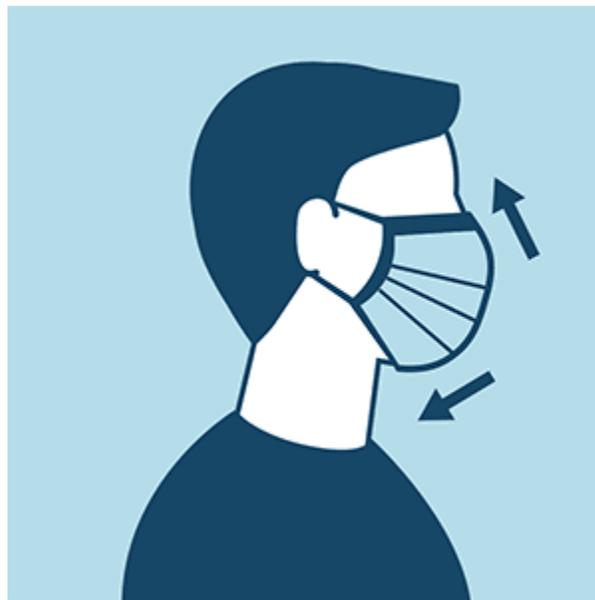

Voters are strongly encouraged to wear a mask or cloth face covering. You have the right to vote if you are not wearing a mask. If you don't have a mask but would like one, please ask a poll worker. Extra masks may be available.

Please stay at least 6 feet apart while waiting in line and within the polling place. Follow poll worker instructions and marked signs to help maintain social distance. Please wash your hands or use hand sanitizer before and after voting.

Curbside voting is available. Please consider using curbside voting if you're not wearing a mask or have flu-like symptoms. Ask a poll worker about how to vote outside the polling place.

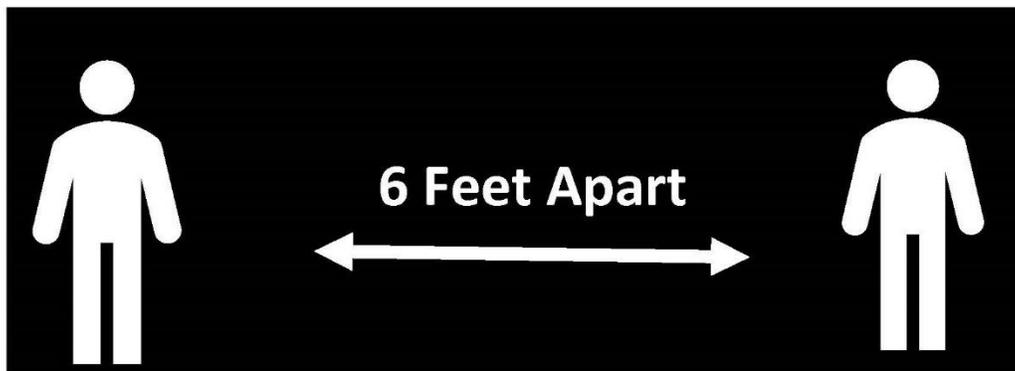

Voters are strongly encouraged to wear a mask or cloth face covering. You have the right to vote if you are not wearing a mask. If you don't have a mask but would like one, please ask a poll worker. Extra masks may be available.

OUTSIDE	Y	N	DATA / MODIFICATIONS / NOTES
Does this location have on-site parking?			
Is there least one van-accessible parking spot (a spot with an adjacent, paved 4ft buffer zone for wheelchair ramp) within 200 feet of the entrance?			
How many total accessible ("handicapped") spots are there?			
Is the path from the accessible parking spots to the entrance firm, slip resistant, obstruction-free, stair-free, and at least 36in wide at all times?			
Is the path marked with tactile surface indicators to help visually-impaired people self-navigate to entrance?			
Do voters with mobility disabilities have to use a separate entrance? If so, is it clearly marked?			
Is there a place to set up a call button for voters with disabilities who require curbside voting?			

INSIDE	Y	N	DATA / MODIFICATIONS / NOTES
Are all entrance ways, doors at least 36in wide?			
Is there enough space for a path throughout the voting process that is firm, slip resistant, obstruction-free, stair-free, and 36in wide at all times?			
If applicable, is the elevator or wheelchair lift operational?			
Is there a working, accessible bathroom (a stall with a 36in door that opens out) that will be available for use on election day?			
Is there a working electrical outlet sufficiently close to the placement of the VAT?

EXHIBIT B

STATE OF MICHIGAN

GRETCHEN WHITMER
GOVERNOR

DEPARTMENT OF HEALTH AND HUMAN SERVICES
LANSING

ROBERT GORDON
DIRECTOR

October 9, 2020

Emergency Order Under MCL 333.2253 – Gathering Prohibition and Face Covering Order

The novel coronavirus (COVID-19) is a respiratory disease that can result in serious illness or death. It is caused by a new strain of coronavirus not previously identified in humans and easily spread from person to person. There is currently no approved vaccine for this disease. COVID-19 spreads through close human contact, even from individuals who may be asymptomatic. On March 10, 2020, the Michigan Department of Health and Human Services (“MDHHS”) identified the first two presumptive-positive cases of COVID-19 in Michigan. Throughout the pandemic, Michigan has used a range of public health tools and guidance to contain the spread of COVID-19 and protect the public health, including via the Governor’s authority under the Emergency Management Act and the Emergency Powers of Governor Act. On Friday, October 2, 2020, the Michigan Supreme Court concluded that the Governor was not authorized to issue executive orders addressing COVID-19 after April 30, 2020.

Michigan was one of the states most heavily impacted by COVID-19 early in the pandemic, with new cases peaking at nearly 2,000 per day in late March. Strict preventative measures and the cooperation of Michiganders drove those numbers down dramatically, greatly reducing the loss of life. Although fewer than 100 new cases per day were reported in mid-June, cases have increased since that time, and recently nearly 1,000 new cases have been reported per day. To protect vulnerable individuals, ensure the health care system can provide care for all health issues, and prevent spread in schools as we head into the influenza season, we must not permit the spread of COVID-19 to increase. This necessitates continued use of mitigation techniques to restrict gatherings and require procedures in order to reduce the spread of the virus. In the absence of the Governor’s executive orders, it is necessary to issue orders under the Public Health Code addressing these topics.

Michigan law imposes on MDHHS a duty to continually and diligently endeavor to “prevent disease, prolong life, and promote public health,” and gives the Department “general supervision of the interests of health and life of people of this state.” MCL 333.2221. MDHHS may “[e]xercise authority and promulgate rules to safeguard properly the public health; to prevent the spread of diseases and the existence of sources of contamination; and to implement and carry out the powers and duties vested by law in the department.” MCL 333.2226(d).

In recognition of the severe, widespread harm caused by epidemics, the Legislature has granted MDHHS specific authority, dating back a century, to address threats to the public health like that posed by COVID-19. MCL 333.2253(1) provides that “[i]f the director determines that control of an epidemic is necessary to protect the public health, the director by emergency order may prohibit the gathering of people for any purpose and may establish procedures to be followed during the epidemic to insure continuation of essential public health services and enforcement of health laws. Emergency procedures shall not be limited to this code.” See also *In re Certified Questions*, Docket No. 161492 (Viviano, J., concurring in part and dissenting in part, at 20) (“[T]he 1919 law passed in the wake of the influenza epidemic and Governor Sleeper’s actions is still the law, albeit in slightly modified form.”); see also *id.* (McCormack, C.J., dissenting, at 12). Enforcing Michigan’s health laws, including preventing disease, prolonging life, and promoting public health, requires limitations on gatherings and the establishment of procedures to control the spread of COVID-19. This includes limiting the number, location, size, and type

of gatherings, and instituting mitigating measures like face coverings, to prevent ill or infected persons from infecting others.

Considering the above, and upon the advice of scientific and medical experts employed by MDHHS, I have concluded pursuant to MCL 333.2253 that the COVID-19 pandemic continues to constitute an epidemic in Michigan. I further conclude that control of the epidemic is necessary to protect the public health and that it is necessary to establish procedures to be followed during the epidemic to ensure the continuation of essential public health services and enforcement of health laws. As provided in MCL 333.2253, these emergency procedures are not limited to the Public Health Code.

I therefore order that:

1. Definitions.

- (a) “Child care organizations” means that term as defined by section 1(b) of the Child Care Organizations Act, 1973 PA 116, as amended, MCL 722.111(b) and day, residential, travel, and troop camps for children (as defined by Rule 400.11101 of the Michigan Administrative Code).
- (b) “Close contact” means being within six feet of an individual for fifteen minutes or longer.
- (c) “Face covering” means a covering that covers at least the nose and mouth.
- (d) “Food service establishment” means that term as defined in section 1107(t) of the Food Law, 2000 PA 92, as amended, MCL 289.1107(t).
- (e) “Employee” means that term as defined in section 2 of the Improved Workforce Opportunity Wage Act, 2018 PA 337, as amended, MCL 408.932, and also includes independent contractors.
- (f) “Gathering” means any occurrence where two or more persons from more than one household are present in a shared space.
- (g) “Organized sports” means competitive athletic activity requiring skill or physical prowess and organized by an institution or by an association that sets and enforces rules to ensure the physical health and safety of all participants (“sports organizer” or “sports organizers”).
- (h) “Region 6” means that region as defined in Attachment A to this order.
- (i) “Symptoms of COVID-19” means fever, an uncontrolled cough, new onset of shortness of breath, or at least two of the following not explained by a known medical or physical condition: loss of taste or smell, muscle aches, sore throat, severe headache, diarrhea, vomiting, or abdominal pain.

2. Attendance limitations at gatherings.

- (a) The restrictions imposed by this section do not apply to the incidental gathering of persons in a shared space, including an airport, bus station, factory floor, food service establishment, shopping mall, public pool, or workplace.
- (b) Gatherings are permitted only as follows:
 - (1) Indoor gatherings of up to 10 persons occurring at a residence are permitted (face coverings are strongly recommended for such gatherings);

- (2) Indoor gatherings of up to 10 persons occurring at a non-residential venue are permitted provided each person at the gathering wears a face covering except as provided in section 6 of this order;
- (3) Indoor gatherings of more than 10 and up to 500 persons occurring at a non-residential venue are permitted only to the extent that the organizers and venue:
 - (A) In venues with fixed seating, limit attendance to 20% of seating capacity of the venue, provided however that gatherings at up to 25% of seating capacity are permitted in Region 6;
 - (B) In venues without fixed seating, limit attendance to 20 persons per 1,000 square feet in each occupied room, provided however that gatherings of up to 25 persons per 1,000 square feet in each occupied room are permitted in Region 6;
 - (C) Require that each person at the gathering wears a face covering except as provided in section 6 of this order.
- (4) Outdoor gatherings of up to 100 persons occurring at a residence are permitted (face coverings are strongly recommended for such gatherings);
- (5) Outdoor gatherings of up to 100 persons occurring at a non-residential venue are permitted provided that each person at the gathering wears a face covering except as provided in section 6 of this order;
- (6) Outdoor gatherings of more than 100 and up to 1,000 persons occurring at a non-residential venue with fixed seating are permitted only to the extent that the organizers and venue:
 - (A) In venues with fixed seating, limit attendance to 30% of seating capacity;
 - (B) In venues without fixed seating, limit attendance to 30 persons per 1,000 square feet, including within any distinct area within the event space;
 - (C) Require that each person at the gathering wear a face covering except as provided in section 6 of this order.
- (c) Gatherings are permitted for the following purposes notwithstanding the requirements of subsection (b) of this section:
 - (1) Voting or election-related activities at polling places;
 - (2) Training of law enforcement, correctional, medical, or first responder personnel, insofar as those activities cannot be conducted remotely;
 - (3) Gatherings for the purpose of engaging in organized sports held in accordance with section 8 of this order;
 - (4) Students in a classroom setting or children in a daycare setting.
- (d) Organizers and venues hosting gatherings permitted under subsection (b) of this section must ensure that persons not part of the same household maintain six feet of distance from one another, including by designing the gathering to encourage and maintain distancing.

3. **Capacity restrictions.** In addition to the attendance limitations imposed by section 2 of this order, the following gathering restrictions apply:
- (a) Except in Region 6, a gathering at a retail store, library, or museum may not exceed 50% of total occupancy limit established by the State Fire Marshal or a local fire marshal.
 - (b) Gatherings at recreational sports and exercise facilities, such as gymnasiums, fitness centers, recreation centers, exercise studios, bowling centers, roller rinks, ice rinks, and trampoline parks are prohibited under any of the following circumstances:
 - (1) If they exceed 25% of the total occupancy limits established by the State Fire Marshal or a local fire marshal;
 - (2) If there is less than six feet of distance between each workout station.
 - (c) Gatherings in waiting rooms at outpatient health-care facilities, veterinary clinics, personal care services, and other businesses are prohibited unless the facility implements a system to ensure that persons not of the same household maintain six feet of distance (this system should include a policy that patients wait in their cars for their appointment to be called, if possible).
 - (d) Gatherings at professional sports and entertainment facilities, including arenas, cinemas, concert halls, performance venues, sporting venues, and stadiums and theaters, are prohibited unless the venue is designed to ensure that patrons not of the same household maintain six feet of distance (e.g. stagger group seating upon reservation, close off every other row, etc.).
 - (e) Gatherings at outdoor pools may not exceed 50% of bather capacity limits described in Rule 325.2193 of the Michigan Administrative Code.
 - (f) Gatherings at indoor pools may not exceed 25% of bather capacity limits described in Rule 325.2193 of the Michigan Administrative Code.
 - (g) Gatherings at non-tribal casinos may not exceed 15% of total occupancy limits established by the State Fire Marshal or a local fire marshal.

4. **Protection of workers.**

- (a) Gatherings of employees in the workplace are prohibited under any of the following circumstances:
 - (1) Except in Region 6, if not strictly necessary to perform job duties, provided however that, where gatherings are necessary, employees must still maintain six feet of distance from one another where practicable;
 - (2) If employees not otherwise required to wear face coverings cannot maintain six feet of distance from others;
 - (3) If employees not otherwise required to wear face coverings occupy the same indoor shared space, such as conference rooms, restrooms, and hallways;
- (b) Employees who are subject to a recommendation to isolate or quarantine consistent with CDC guidance; have been instructed to remain home by a health or public health professional; or who are awaiting a COVID-19 test or the results of a COVID-19 test after having symptoms of COVID-19, must not be present in a gathering at work until the

employee is advised by a health or public health professional that they may return to work, or the following conditions are met:

- (1) 24 hours have passed since the resolution of fever without the use of fever-reducing medications; and
 - (2) 10 days have passed since their symptoms first appeared or since they were administered a COVID-19 test that yielded the positive result, if applicable; and
 - (3) Other symptoms have improved.
- (c) Employers must not require workers to gather with other persons at work in violation of this order.
- (d) All businesses or operations that require their employees to gather with other persons for work must conduct a daily entry self-screening protocol for all employees or contractors entering the workplace, including, at a minimum, a questionnaire covering symptoms of COVID-19 and suspected or confirmed exposure to people with possible COVID-19.

5. Face covering requirement at gatherings.

- (a) A person responsible for a business, government office, school, or other operation, or an agent of such person, must not allow indoor gatherings of any kind unless they require individuals in such gatherings (including employees) to wear a face covering, subject to the exceptions in section 6 of this order. For schools in Region 6, the wearing of face coverings is strongly recommended, but not required.
- (b) A person responsible for a business, government office, school, or other operation, or an agent of such person, may not assume that someone who enters the operation without a face covering falls in one of the exceptions specified in section 6 of this order, including the exception for individuals who cannot medically tolerate a face covering. An individual's verbal representation that they are not wearing a face covering because they fall within a specified exception, however, may be accepted.
- (c) All child-care organizations must not permit gatherings unless face coverings are worn by:
- (1) All staff and all children 2 years and older when on a school bus or other transportation provided by the child-care organization or camp;
 - (2) All staff and all children 4 years and older when in indoor hallways and common areas. Face coverings should be encouraged for children 2 years and older when in indoor hallways; and
 - (3) All staff and all children 5 years and older when in classrooms, homes, cabins, or similar indoor settings. Face coverings should be encouraged for children 2 years and older when in these settings.
- (d) A person responsible for establishments open to the public, or an agent of such person must:
- (1) Post signs at entrances instructing customers of their legal obligation to wear a face covering when inside the store; and
 - (2) Post signs at entrances informing customers not to enter if they are or have recently been sick.

6. **Exceptions to face covering requirements.** Although a face covering is strongly encouraged even for individuals not required to wear one (except for children under the age of 2), the requirement to wear a face covering in sections 2, 5 and 6 of this order do not apply to individuals who:

- (a) Except as otherwise provided in section 5 of this order, are younger than 5 years old (and, per guidance from the CDC, children under the age of 2 should not wear a face covering);
- (b) Cannot medically tolerate a face covering;
- (c) Are eating or drinking while seated at a food service establishment;
- (d) Are exercising outdoors and able to consistently maintain six feet of distance from others;
- (e) Are swimming;
- (f) Are receiving a service for which temporary removal of the face covering is necessary;
- (g) Are entering a business or are receiving a service and are asked to temporarily remove a face covering for identification purposes;
- (h) Are communicating with someone who is deaf, deafblind, or hard of hearing and whose ability to see the mouth is essential to communication;
- (i) Are actively engaged in a public safety role, including but not limited to law enforcement, firefighters, or emergency medical personnel, and where wearing a face covering would seriously interfere in the performance of their public safety responsibilities;
- (j) Are at a polling place for purposes of voting in an election;
- (k) Are engaging in a religious service;
- (l) Are giving a speech for broadcast or to an audience, provided that the audience is at least six feet away from the speaker;

7. **Food service establishments.** Food service establishments must prohibit gatherings in all the following circumstances:

- (a) In indoor common areas in which people can congregate, dance, or otherwise mingle;
- (b) If there is less than six feet of distance between each party;
- (c) If they exceed 50% of normal seating capacity;
- (d) Anywhere alcoholic beverages are sold for consumption onsite, unless parties are seated and separated from one another by at least six feet, and do not intermingle.
- (e) If they involve any persons not seated at a table or at the bar top (customers must wait outside the food service establishment if table or bar top seating is unavailable);
- (f) Until the food service establishment has been deep cleaned consistent with Food and Drug Administration and CDC guidance, in the event that an employee of the food service establishment is confirmed positive for COVID-19 or shows symptoms of COVID-19 while at work.

8. **Organized sports.** Gatherings for the purpose of organized sports are permitted in accordance with this section. Organizers and venues of organized sports must ensure that:
- (a) Athletes wear a face covering (except when swimming) or consistently maintain six feet of social distance (except for occasional and fleeting moments) when training for, practicing for, or competing in an organized sport. For example, an athlete participating in a football, soccer, or volleyball game would not be able to consistently maintain six feet of distance, and therefore would need to wear a face covering. Sports organizers must ensure that athletes comply with this section for each organized sporting event.
 - (b) They consider the [guidance](#) issued by this Department regarding how a sport can be played safely.
 - (c) For organized sports competitions, sports organizers must ensure either that the live audience is limited to the guests of the athletes (requiring face coverings for non-athletes consistent with section 6), with each athlete designating up to two guests, or that the event complies with gathering requirements of section 2(b) in this order.
 - (d) For indoor organized sports, sports organizers must ensure that no concessions are sold at the venue.
 - (e) Notwithstanding any other provision of this order, professional sports leagues and teams, including professional athletes engaged in individual sports, may engage in professional sports operations, provided that:
 - (1) The activities are conducted under a COVID-19 safety plan that is consistent with any guidance from the CDC and this Department; and
 - (2) Participants maintain six feet of distance from one another to the extent compatible with the sporting activity.

9. **Contact Tracing.**

- (a) Gatherings are prohibited at the following facilities unless the facility maintains accurate records, including date and time of entry, names of patrons, and contact information, to aid with contact tracing, and denies entry for a gathering to any visitor who does not provide, at a minimum, their name and phone number:
 - (1) All businesses or operations that provide barbering, cosmetology services, body art services (including tattooing and body piercing), tanning services, massage services, or similar personal care services;
 - (2) Sports and entertainment facilities (except outdoor, unticketed sporting events), including arenas, cinemas, concert halls, performance venues, sporting venues, stadiums and theaters, as well as places of public amusement, such as amusement parks, arcades, bingo halls, bowling centers, skating rinks, and trampoline parks;
 - (3) Gymnasiums, fitness centers, recreation centers, exercise facilities, exercise studios, bowling centers, roller rinks, ice rinks, and like facilities.
- (b) All businesses or operations that provide in-home services, including cleaners, repair persons, painters, and the like must not permit their employees to gather with clients unless the business maintains accurate appointment records, including date and time of service, name of client, and contact information, to aid with contact tracing.

10. Implementation.

- (a) Nothing in this order should be taken to modify, limit, or abridge protections provided by state or federal law for a person with a disability.
- (b) Under MCL 333.2235(1), local health departments are authorized to carry out and enforce the terms of this order.
- (c) Law enforcement officers, as defined in the Michigan Commission on Law Enforcement Standards Act, 1965 Public Act 203, MCL 28.602(f), are deemed to be “department representatives” for purposes of enforcing this order, and are specifically authorized to investigate potential violations of this order. They may coordinate as necessary with the appropriate regulatory entity and enforce this order within their jurisdiction.
- (d) Neither a place of religious worship nor its owner is subject to penalty under this order for allowing religious worship at such place. No individual is subject to penalty under this order for engaging in religious worship at a place of religious worship.
- (e) Consistent with MCL 333.2261, violation of this order is a misdemeanor punishable by imprisonment for not more than 6 months, or a fine of not more than \$200.00, or both.
- (f) The October 5, 2020 order entitled Gathering Prohibition and Mask Order is rescinded. Nothing in this order shall be construed to affect any prosecution based on conduct that occurred before the effective date of this order.
- (g) Consistent with any rule or emergency rule promulgated and adopted in a schedule of monetary civil penalties under MCL 333.2262(1) and applicable to this order, violations of this order are punishable by a *civil* fine of up to \$1,000 for each violation or day that a violation continues.
- (h) If any provision of this order is found invalid by a court of competent jurisdiction, whether in whole or in part, such decision will not affect the validity of the remaining part of this order.

This order is effective immediately, and remains in effect through October 30, 2020. Persons with suggestions and concerns are invited to submit their comments via email to COVID19@michigan.gov.

Date: October 9, 2020

Robert Gordon, Director
Michigan Department of Health and Human Services

Attachment A

Region definitions. For purposes of this order, Michigan comprises eight separate regions.

- (a) Region 1 includes the following counties: Monroe, Washtenaw, Livingston, Genesee, Lapeer, Saint Clair, Oakland, Macomb, and Wayne.
- (b) Region 2 includes the following counties: Mason, Lake, Osceola, Clare, Oceana, Newaygo, Mecosta, Isabella, Muskegon, Montcalm, Ottawa, Kent, and Ionia.
- (c) Region 3 includes the following counties: Allegan, Barry, Van Buren, Kalamazoo, Calhoun, Berrien, Cass, Saint Joseph, and Branch.
- (d) Region 4 includes the following counties: Oscoda, Alcona, Ogemaw, Iosco, Gladwin, Arenac, Midland, Bay, Saginaw, Tuscola, Sanilac, and Huron.
- (e) Region 5 includes the following counties: Gratiot, Clinton, Shiawassee, Eaton, and Ingham.
- (f) Region 6 includes the following counties: Manistee, Wexford, Missaukee, Roscommon, Benzie, Grand Traverse, Kalkaska, Crawford, Leelanau, Antrim, Otsego, Montmorency, Alpena, Charlevoix, Cheboygan, Presque Isle, and Emmet.
- (g) Region 7 includes the following counties: Hillsdale, Lenawee, and Jackson.
- (h) Region 8 includes the following counties: Gogebic, Ontonagon, Houghton, Keweenaw, Iron, Baraga, Dickinson, Marquette, Menominee, Delta, Alger, Schoolcraft, Luce, Mackinac, and Chippewa.
